PROFESSIONAL EXPERIENCE

Product builder | No-code Automation Consultant

WIDO

Freelance — Product Builder & AI Trainer
Sep 2025 — Present

- Mapped and analyzed business processes to identify automatable tasks and efficiency opportunities.
- Led scoping workshops and formalized functional requirements with business teams.
- Designed, configured, and deployed business solutions.
- Designed and configured automation workflows and AI agents tailored to business processes.
- Integrated and connected tools through APIs and automation platforms.
- Tested, improved reliability, and continuously optimized automations before deployment.
- Documented processes and supported users in adopting new tools.
- Delivered professional training on AI, automation, and emerging use cases.

Technical-Functional Consultant | Business analyst

Disneyland Paris

Freelance — Cross-functional Technical Project Manager & Application Support
Oct 2022 — Jul 2024

- Managed Run, Build, and deployments for a CMS used by several international Disney entities across Europe, the Americas, and Asia.
- Gathered business requirements, led functional workshops, wrote functional specifications and user stories, and prioritized the backlog.
- Coordinated Product, Design, IT, and QA teams, driving application enhancements and ensuring delivery quality.
- Tracked development, prepared production releases, coordinated functional testing, and managed issues in Jira within an Agile/Scrum environment.
- Planned enhancements, estimated workloads, analyzed risks, and coordinated application migrations while supporting teams through transition phases.
- Defined processes and application governance, documented best practices, and supported users during deployments.

WordPress & PrestaShop Front-end developer

Lagence123 / PRIXIMBATTABLE / X3d Group / Infeeny / Fimwy / Ohmyweb

2015 — 2021

- Developed and enhanced e-commerce websites using WordPress and PrestaShop.
- Built custom themes and features.
- Handled technical migrations and ongoing maintenance.
- Optimized performance and supported clients.
